The Trade of Norfolk.

The exports of lumber for the six months ending 31st December last, as has been shown by the Custom House record, was \$146,736. The entire exports during the same period, an abstract of which has been politely furnished us from the same source, amount to \$229,207. Thus it will be seen that lumber constitutes in value considerably more than half our other exports, which consisted of Beef, Bacon, Candles, Coal, Cotton, Corn, Flour, Fish, Iron nails, Iron, Peas, Pork, Rosin, Tar, Pitch, Tobacco and Wood manufactured.

But the export trade of Norfolk is only a very small item in comparison with her domestic or coast-wise commerce. Take the article of corn, for example: of which only 36,000 bushels were exported during the ly furnished us by Mr. Francis B. Dixon decided it. from records kept by him in the office of the of December, 1857 to the 20th February. bushels 861,261 1858 amounted to

do. '59 638.143 Showing a decrease of owing to short crops. The entire shipment of corn coast-wise, from the 1st of July, 1857, to 1st July, 1858, amounted to bus, 1,963,781 105,998 Foreign exports Home consumption, fully

2,219,779

But owing to a partial failure in the corn crop, it is estimated that there will be a decrease the present year of 200,000 bushels; which would leave for the aggregate quantity of corn brought to our market in the year ending 1st July, 1859, 1,819,779 .- Norfolk

DELIBERATE MURDER .- A man by the name of Richard Fowler, residing in Granville county, North Carolina, was killed by his halfbrother, a deaf and dumb man named Harris. Some time ago, Harris built a chicken coop in a corner of Fowler's fence, which the latter removed during his temporary absence, having occasion to change the locality of the fence. When Harris returned and discovered what had been done, he became greatly enraged and made signs to those about him that he would shoot his half-brother, if he had to hang for it. This was told to Fowler by his wife, who begged him not to meet Harris, as she felt sure he would execute his threat. At the residence of his brother in the County of Stafford, JOS. F. B. 78 To the editor of the Southern Churchman, Alexandria, Va., Dear Sir: In the Gazette of the 17th, I find your answer to my note addressed to you in the said paper of the 16th inst. I stated then that in the quotation I made from your article. I took your mildest language. I might as truthfully have said, that in your paper you have charged Baptists with holding principles which necessarily lead to "lying, stealing, licentiousness, and murder." You have also charged them with holding dectrines, and possessing peculiarities which are in themselves corrupt, and which make the colored population worthless: and, indeed, you have said much more, either by your correspondents or through your own editorial endorsements, utterly at variance with fact, so far as Baptists are con cerned. These grave charges were made, I say, through the columns of your paper with your endorsement.

An humble and unpretending layman in a Baptist church in your city, being carried away by your professed love of truth, union, and fellowship, was foolish enough to suppose you sincere it your professions, and therefore asked the privilege defending my denomination in the columns in which the charges were made to your own readers. But instead of granting this reasonable request, you say you will find some one to discuss our differences wif the discussion be conducted in a Baptist paper. since "Baptists do not read Episcopal papers. To this it is a sufficient reply to say, that Episcopal palians do not read Baptist papers, and therefore, to refute the gross charges which you have circulated, only in the columns of a Baptist paper, would be nothing to the purpose. Now, as a christian and a gentleman, you are in honor bound either to withdraw your charges, or to give an opportunity to Baptists to defend themselves on the ground period above named, while the total shipment, foreign and coast-wise, amounted to charges to your readers, not to Baptist readers; 398,677. My business just now, is with the Episcopal church, and with the charges made against the Baptists, and not with "all the world and the rest of mankind." My proposition was and still is, to compare notes with your denomintion, in order to see which lays the greater stress upon their peculiarities. You say, Baptism is a hobby with us: I propose to show from your own creeds that Baptism is gone salcation. You say that the peculiarities of Baptists are evil: 1 propose to show, that, by your peculiarities you are the most exclusive professed evangelical denomination on the face of the globe, unchurching your darling Apostolic Succession, the whole evangelical christendom outside of yourselves. Nay, more than this, I propose to show by an thentie history, that since the time of Christ, some of the principles which you now hold, have given birth to the most corrupt ecclesiastical organ izations that ever laid claim to evangelical sentiments. I propose to show, that if your peculiarities are legitimately carried out, they must subvert the church of Christ, and turn it into a mere masof unregenerate men, with no savor of holiness in

their hearts.
On the other hand, I propose to show that the faith and peculiarities of the Eaptists are the most spiritual found among men; and that they are so necessarily, because they are built only upon the foundation of the Prophets and Apostles, Jesus Christ himself being the chief corner stone. pose to show that our appeal is to the Bible. to the Bible alone, as the only rule of Faith and Practice; and to the authentic annals of the christian church from the days of Christ until now, for the purity of our practice. Hanted down as we have been, and driven to the prison and to death by your forefathers in almost every land, we nevertheless stand to-day greatly your superiors it numbers and in power; equal at least in intelligence; and by no means your interiors in laborof love and mercy. In conclusion, let me repeat for your edification the well known adage, "he that lives in a glass house should not throw stones. You know, sir, that we have not sought this un seemly controversy; that we have remonstrated with you in private; and in return you have only added insult to injury. We ask simple justice, not protection, at your hands. But it seems that you have come to the conclusion, (and perhaps wisely, "That he who fights and runs away.

In noticing the remarks of the editor of the Sentinel in his issue of the 18th inst., I beg leave to say, that the fact of his using oppro
Jamaica, and Santes COFFEES; 10 boxes Castile brions enithets, misrepresenting the American party, &c., are facts so well remembered by all who read the Sentinel at the time, that I do not deem it necessary to establish it further. In the next place I say that at the ratification meeting, L. B. Taylor, esq., and myself both addressed the meeting as Whigs and Americans. With regard to the Custom House removals, I think I am well informed upon the subject. I am authorized by Mr. For freight, apply to THOMAS PERRY. Peyfon Ballenger, to say, that the Demoeratic meeting at Lyceum Hall, had adjourned, and that he was in the Democratic procession, and came down King street, while tiov, Smith was speaking from the Marshall House steps, or balcony, and that the said Democratic procession sent up a terrible vell. My convention remarks contained three

material facts; 1st. 1 did not know how Gov. Smith could be ignorant of the political complexion of the party he was addressing. 2d. That while he was speaking, a Democratic procession came into King street and sent up a defiant shout; and 3d. That Gov. Smith was invited to go to the Hall and address the American party. I think I have shown the two first propositions, to be correct; for the truth of the last, I received my information from another gentleman. Hav ing thus established my positions, I now call upon Mr. R. M. Smith to "vote and labor against Gov. Smith's election."

March 19 W. D. MASSEY. Herewith, I annex the eards of Messrs.

Taylor and Higdon. Dear Sir: I have this moment received your note, requesting me to state what I know in relation to the Marshall House Speech of the Honora-ble Wm. Smith. In reply, I have to say, that I was present when that memorable speech was delivered, and heard the whole of it. It was made on the night before the day of the last Gubernatorial election. On that night, as the caudidate of the American party, for a seat in the General Assembly of Virginia, I had addressed the people of Alexandria, in mass meeting assembled; after I had concluded what I had to say to the people, I was approached by Mr. C. E. Stuart, and requested by him to move the appointment of a commit-tee to call on Gov. Smith, to address the American party, in the said mass meeting assembled. This. for reasons at the time perfectly satisfactory to me, and if I were to state them now they would be satisfactory to the world, I declined to do. The meeting was subsequently addressed by Mr. French S. Evans, and by Mr. Carrington. After Mr. Carrington concluded his speech, Mr. Stuart came forward and announced that Gov. Smith would address the meeting in front of the Marshall House, and moved an adjournment for that pur-pose. The adjournment was made, and the Amer-

ican party of Alexandria proceeded in a body to

the Marshall House, and called the Governor out,

(don't you observe!) The Governor responded to

the call, promptly, and I heard the whole of his

speech, which was short; the cause of its brevity I will not undertake to account for—but this I will

say, that in the midst of his speech, a procession

with music, banners, and transparencies, wheeled into King street from Washington street, the effect of which was to put an end to the Governor's

Masser, Esq. was experienced in the Chesapeake bay last Dear Sir: I was at the meeting at American night, and there are apprehensions of marine Hall on the night in question, attending a meeting of the American party of Alexandria. A gentleman who was called upon to speak said that Mr. Smith was at the Marshall House, and would address the meeting, and if I mistake not said that he (Mr. friends," and moved that a committee be appoint ed to wait on Mr. Smith and invite him to address the meeting. The Chair appointed the committee, who having waited on that gentleman, returned and reported that Mr. Smith had started with them, but was met by a friend, who advised Governor to return to the Marshall House and ad dress us from there. On motion, the meeting adwheat promises finely, except in the low journed to the Marshall Hosse in a body, the proession being headed by a band of extemporaneous music, several gentlemen of the party officiating as amateur musicians. The party drew up in front of the Marshall House, when Mr. Smith was introduced by the committee, and made a speech to the satisfaction of the party there assembled .-Before Mr. Smith concluded his speech the Demoeratic party, in procession, came down King street, and turned up Pitt. Some of the Democratic procession mingled with our party, and some one of them called Mr. Smith "a d—d traitor," which came near leading to a row, the opposition party, (the Know Nothings.) interposing to prevent Mr. Smith from being insulted. SOMBRERO GUANO. N calling the attention of the public to this val-uable and recently discovered deposit of this fertilizing article, we will merely state, that like all other phosphatic GUANOS, its most valuable constituent is phosphoric acid, or bone phosphate of lime; and that its mercantile value, as compared with other GUANOS of its kind, may be easily determined by the amount of phosphoric acid or bone phosphate of lime it contains. In order, therefore, to give the public a thorough knowledge of what SOMBRERO GUANO does contain, we beg to refer to the foll-wing list of eminent chemists in different parts of the world, who have analyzed different cargoes, from average samples taken by themselves from the cargoes just as they arrive from the island, without drying or selection of specimens for analyzation. Each analysis will be exhibited, if required, under the original signature

HE attention of Planters of Virginia, is called I to this valuable manure, which has been thoroughly tested for the past six years on every description of crop.

This preparation supplies valuable soluble phos-

phoric acid, the indispensable nutriment of plants. RHODES' Super Phosphate of Lime is a chemical compound, entirely different from the character of the raw materials which are used in preparation. It possesses virtues specifically its own, not berrowed from other natural products, nor imitable by them, and is hence destined to form an indique The Model Farm, at Petersburg, (Virginia.) has,

29.10 through all its various administrations, (first the present superintendent, Mr. Harris,) endorsed this manure as one of great value, and especially adapted for tobacco. "The Southern Farmer," at Petersburg, in their

ssue of November 27th, notes the best sample of tobacco at the Virginia State Society's Exhibition last fall was grown by Dr. J. W. Hunt, of Nottoway county, with the application of Rhodes' Suger The Hon. Wm. L. Goggin, of Bedford county,

ricultural Society, endorsed this manure, and remarked "that it seemed to him that to secure a very large demand for this preparation was but for it be known. The South Carolina Agricultural Society, at their annual Fair, held at Columbia 9th, 10th, 11th, and 12th November, 1858, through their Committee on

Virginia, in his address before the Lynchburg Ag

Chemicals, Minerals, &c., reported: "The committee would call the attention of the society to Rhodes' Super Phosphate of Lime. Experience has proved it to be a valuable fertilizer-

fully, and to the best of their ability. "John H. Boatwhight, "John H. MAXWELL, "WM. F. PRATT."

The Richmond "Enquirer," of December 2d, in noticing this Manure in an editorial of considerable length, says:
"We regard the subject of fertilizers so important to our farmers and planters that we do not intend to allow ourselves to be betrayed into a careless ex-pression of opinion, and hence we have examined his (Rhodes') claim with care. We heartily recommend this fertilizer. It has been used upon Tobacco, Wheat, Corn, and other Grains, and Ve-

getables, with like good results, and differing from Guano in leaving the land in better heart." We could enumerate proof after proof of this val-uable Manure, but will refer for particulars to our Pamphlet, which can be had by addressing us or our several Agents, (who will furnish Rhodes' Su per Phosphate at our prices, with the simple addi-

tion of shipping expenses,) viz: WATERS, ZIMMERMAN & CO., Alexandria, Virginia. Scher, Kohler & Co., Richmond, Va. Venable & Morton Petersburg, Va. M. Hollins & Co., Lynchburg, Va. Scott, French & Co., Fredericksburg, Va. B. F. Bockorer; Norfolk. jan 26-colu
